Summary

Highly motivated and enthusiastic individual with a passion for web development, graphic design and branding. Strong foundational knowledge in HTML, CSS, and Python, as well as working with Graphic Design software and CAD programs. Eager to learn and grow within a collaborative team environment as well as individual projects. I very much into drone photography, I have a few drones that I fly for fun. I have even successfully 3D printed my very own small drone.

When I get the chance I love to rock climb with friends, extreme sports like skiing or snowboarding down mountain sides and bungee jumping off bridges. I've always been very into drones and gadgets so when I get the chance I'm an avid drone photographer and videographer.

Experience

Marketing Intern

tranScrip - 6 Months & Current Work

Using my programming and Graphic Design know-how, creating social posts, posters, using salesforce to collect and utilise collected data.

Mechanical Engineer Intern

NOVATEK - 1 Year
